

ARE YOU READY TO MAKE SOME WAVES?

MODULAR FLOATING DOCK & PWC SYSTEMS

The Wave Dock™ is a modular floating dock platform that revolutionizes the way lake and ocean home owners and marinas customize their floating dock systems; Available in an amazing new Pebble Beach flagstone finish, bringing a rich new look to the industry. With the proprietary patent pending H-Beam Channel Lock System™, these dock sections are infinitely modular, assemble quickly, and offer a solid connection platform with just the right mix of rigidity and flexibility. Each floating dock section is 60 inches wide x 120 inches long x 16 inches tall, allowing the system to be easily assembled into the exact configuration needed. With a full line of accessories and custom attachments the Wave Dock™ has set the new standard for modular floating dock systems. Visit us online at www.wavearmor.net
